G5 Ren: Green 五年仁班：綠組

In the Ren 5 green class last week, students wrote paragraphs comparing planets. They then enjoyed our newly set-up game center as an "early finisher" after they are done with their work. This gives students incentive to complete their work in a timely manner and to work on their cooperation skills with their classmates.

在上週五仁綠組的課堂上，學生們寫了一些比較行星的文章段落。然後，他們在完成課堂寫作後享受從新安排的分組活動，所帶來的樂趣，作為「提前完成者」的獎勵。這樣可以激勵學生及時完成作業，並培養他們與同學的合作能力。

G5 Ren: Yellow 五年仁班：黃組

In the Ren 5 yellow class last week, students worked in groups to write a paragraph about the similarities and differences between Earth and Venus using the information they already learned. Students chose a topic among location, orbit/rotation, features, gravity... etc. to write about.

在上週五仁黃組的課堂上，學生們進行課堂小組分組活動，運用他們已學習到的資訊，寫一段關於地球和金星不同之處的文章。學生從位置、公轉/自轉、特徵、地心引力…等主題中挑選一項來寫。

G5 Ai: Green 五年愛班：綠組

In the Ai 5 green class last week, students wrote paragraph comparing planets. They then enjoyed our newly set-up game center as an "early finisher" after they are done with their work. This gives students incentive to complete their work in a timely manner and to work on their cooperation skills with their classmates.

G5 Xin 五年信班

Last week, students in Xin 5 completed a writing task of features, locations and properties of two planets and compare and contrasted them. They have been practising hard to use language that shows an understanding of the similarities and differences that various things may have with each other. This helps students categorize, sort, evaluate, and understand new information.

在上週，五信的學生們完成了寫作任務，他們寫出兩個星球的特徵、位置和屬性，並將它們進行了比較和對照。他們一直在努力的練習並表達對各種事物之間可能存在異同之處的語言來證明對文章的瞭解程度。這有助於學生對新資訊進行分類、整理、評估和理解。
